

Fernando Gutiérrez Canales

Data Analyst — PhD

León, Mexico — [LinkedIn](#) — +52 1 477 55 18 832 — carl.cfge@gmail.com
[Project Portfolio](#)

Professional Summary

Data Analyst with a PhD in Exact Sciences, a recent Data Analytics Bootcamp certification, and over 5 years of experience analyzing complex datasets. Proven track record of extracting, cleaning, and transforming raw data into actionable business intelligence using SQL, Python (Pandas), and Tableau. Highly driven problem-solver skilled at communicating technical findings to stakeholders and optimizing operational workflows to drive data-informed decision-making.

Professional Experience

Mercor

AI Prompt Engineer for Top-Tier AI Laboratory

Göttingen (Remote)

Oct 2025 – Feb 2026

- Developed complex logical and analytical datasets (adversarial prompts) to train Large Language Models (LLMs), effectively testing and improving their reasoning capacity by 30%.

Paris Observatory & Max Planck Institute for Solar System Research Paris and Göttingen

Data Analyst & Researcher

Mar 2022 – Jul 2025

- Developed automated data pipelines in Python to process and analyze massive datasets, extracting key metrics to estimate exoplanet detection efficiencies for the PLATO space mission.
- Collaborated with stakeholders across 15+ international institutions, standardizing data workflows and ensuring rigorous data quality and integrity for mission-critical information.
- Integrated C and Bash modules to streamline operational processes, significantly reducing manual data handling time.

ESTEC, European Space Agency (ESA)

Data Analyst (Internship)

Noordwijk, Netherlands

Jun 2023 – Aug 2023

- Automated the extraction and validation of complex parameters from photometric detectors using Python, improving the operational efficiency and accuracy of data reporting processes.

Featured Data Projects

E-commerce / Business Analytics Project (TripleTen)

Data Analyst

Python, SQL, Tableau

March 2026 – April 2026

- Analyzed user behavior data to identify drop-off points in the sales funnel
- Created a Tableau dashboard that highlighted a 15% opportunity to increase retention.

Ophthalmology Clinic Data Digitalization & BI

Lead Data Consultant (Independent Project)

León, Mexico

2021 – 2022

- Extracted, cleaned, and structured years of fragmented physical and digital records, centralizing them into a robust, easily queryable database.
- Designed and generated recurring operational reports that improved information accessibility, directly optimizing the clinic's staff management and daily workflows.

Technical Skills

Data Analysis & BI: SQL, Tableau, Excel, Data Visualization, Business Intelligence, Data Wrangling, Time Series Analysis.

Programming & Tools: Python (Pandas, NumPy, Scikit-learn), Bash, C, Git, Docker, Linux.
Soft Skills: Problem Solving, Stakeholder Communication, Analytical Thinking, Adaptability.

Languages

Spanish: Native — **English:** C1 (Advanced) — **French:** B2 — **German:** Basic

Education

Data Analytics Bootcamp Certification	<i>TripleTen</i>	<i>2026</i>
PhD in Astrophysics	<i>Paris Observatory & MPS Göttingen</i>	<i>2025</i>
Master's Degree in Astrophysics	<i>University of Guanajuato, Mexico</i>	<i>2021</i>
Bachelor's Degree in Physics	<i>University of Guanajuato, Mexico</i>	<i>2019</i>

Achievements & Publications

- Co-author of [peer-reviewed publications](#) on photometric data analysis and planetary systems.
- Selected to present analytical research findings at major international conferences (EAS Padua 2024, PLATO Week Prague 2023).
- Recipient of full academic scholarships and graduated with Honorable Mention across all three university degrees (2019, 2021, 2025).
